go digital with Avena

Digital is the future for showering and the Alterna Avena is our first private label digital shower, giving you a real alternative to the big brands.

The Avena high performance mixer shower differs from an ordinary mixer shower in that it uses the latest in remote control technology – just like the remote control for your television.

- Hot and cold water connections are made to a mixing unit, which can be sited under the bath, in the airing cupboard or loft
- No damage to tiling and easy to maintain and service
- Shower kit can be installed through the ceiling or through the wall
- Fit the remote control wherever you want – up to 10 metres away from the mixing unit.
- Quick and easy - both shower kit and remote control simply screw to the wall
- Low and high pressure options available

Altech Compact Radiator Pack - upto 35,000 Btu/hr Output	ALTRPK35	£452.00	£519.80

Step Two Choose any quantity of radiators required (up to your chosen Btu/hr output) from the sizes below (all products are listed individually on **pages 99-102**)

K1	Height	Length	K2	Height	Length
	400mm	500mm – 1200mm		400mm	500mm – 1200mm
	600mm	400mm – 1400mm		600mm	400mm – 1400mm
	700mm	400mm – 1000mm		700mm	400mm – 1000mm

Step Three Don't forget your radiator valves. Take advantage of the great value valve packs detailed below
